

USER MANUAL

Bluetooth connecting

Power on the amplifier

Using smart phone /notebook .product with Bluetooth function

Searching “F900 Music play” Bluetooth , click connecting, if hint PIN pls enter 0000, after connecting then can play wireless music.

Bluetooth indicator condition, blue light twinkle , means Bluetooth not connect ,if indicator light for long period then twinkle means connect succeed

problem solution:

Bluetooth not connect succeed: power off it and restart again.

Amplifier no sound: check whether volume normal, confirm insert DC 12V -24V power .

AUX audio input no sound : only can use 3.5mm audio signal cable

IBM (Lenovo) Note book can't connect the Bluetooth with this amplifier ,need download the Bluetooth driver then connect Bluetooth device ,click >>Control panel ,find the “Sound ”option ,setting Bluetooth as the “default device ”

Bluetooth connecting distance: within 10 meter

Bluetooth standard : Bluetooth 4.0+EDR

Headset power: 105mW×2

Rated power: 30W×2

Power input: DC 12V-24V 3A-4A
