

Take control with  
ADRIA LIVE STREAM!

USER MANUAL

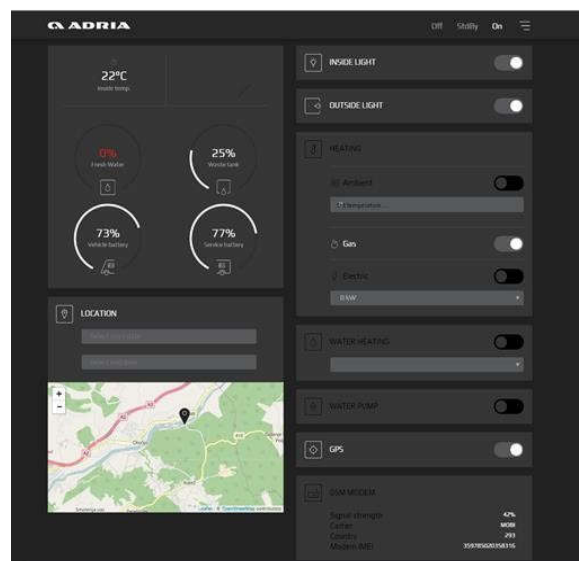

## INTRODUCTION

### Take more control

ADRA *Live Stream* is a remote control application operating via GSM or Wi-Fi. It's an option with new Sonic motorhomes, which enables you to control the main functions of your motorhome. It connects your tablet, notebook, personal computer or smartphone to your vehicle and lets you set up and control the key vehicle functions, enabling you to manage your motorhome efficiently and economically.

### Control Key Vehicle Functions

- Electrical systems
- Heating (Truma or Alde)
- Inside and outside temperature
- Battery levels
- Lights
- Water pump
- Water levels (fresh/waste)
- Using GPS geo-localization Adria Live Stream also connects you on the road, enabling access to Adria's Camping & Caravanning Guide and other useful resources whilst travelling.

### More freedom on the road

**Mobility area** - The dynamic location map (GPS) is also integrated into the Adria remote App. You can find favourite locations, such as points of interest, closest dealers, home address, etc...

**Adria Camping & Caravanning Guide** - 6,000 campsite details across Europe and beyond.

**Adria Dealer network information** - over 450 Adria dealer details across Europe and beyond.

### Sonic motorhome User Manual

Adria live stream App gives you useful tips as Vehicle pocket guide - how to use main functionalities of the vehicle (basic information about vehicle features and options).

### How it works

Adria Live Stream intelligent control is activated by registering the vehicle with [www.nordpanel.it](http://www.nordpanel.it) choosing your preferred language, becoming a registered user with your own PIN. Once you are registered, follow the easy steps and you are ready to take control.

Adria Live Stream is provided as a payable package. Users can register for more than one vehicle if for example you are a fleet operator. The service has no additional costs if used with local Wi-Fi connection.

See website NORDPANEL, [www.nordpanel.it/](http://www.nordpanel.it/) for more information.

*To register as the user and your vehicle, please follow steps described on the next pages.*

## 3. PURCHASE THE SERVICE

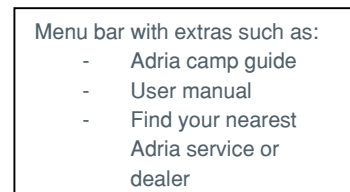

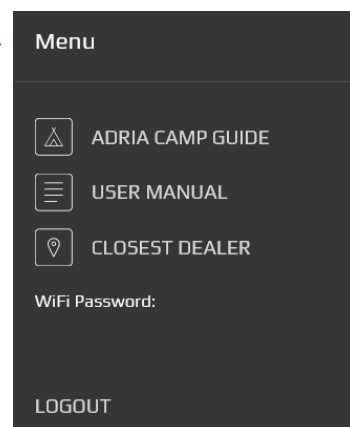

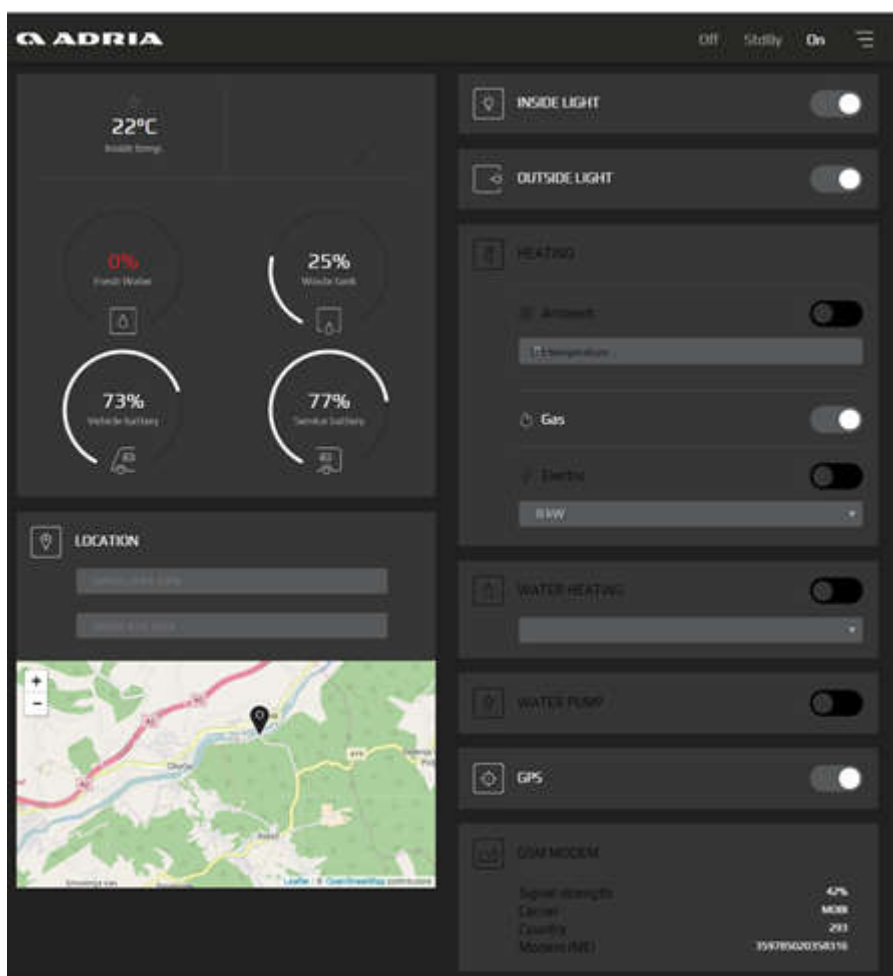

Once you have registered the vehicle you can proceed with buying the service for one, or even more than one vehicle in the company fleet.

You can choose the coverage area of the service from among those available as well as the duration of activation. It will also be possible to choose the month when the service will be activated. You can pay for the service with most common used credit cards or paypal.

## 4. GO TO PANEL

Login into service [www.nordpanel.it/](http://www.nordpanel.it/)

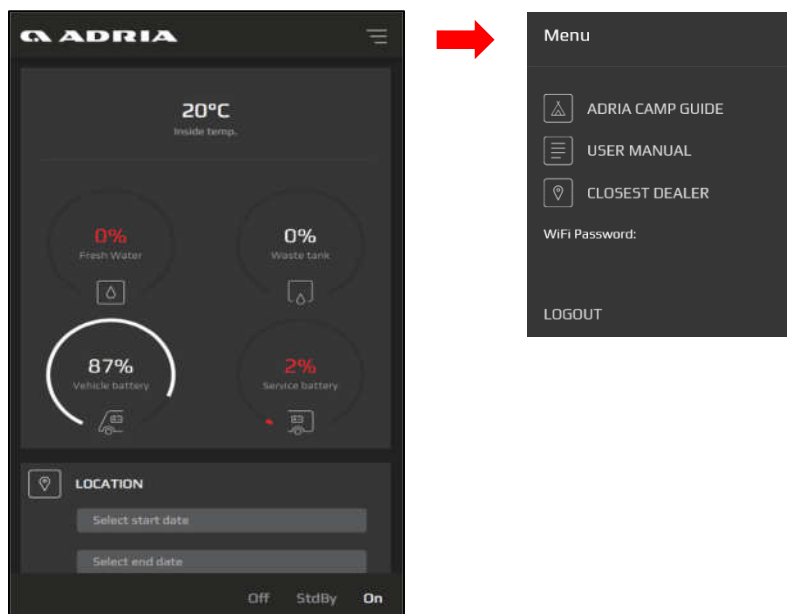

## 5. APP STRUCTURE

### 5.1. HOW TO USE ADRIA LIVE STREAM 24/7

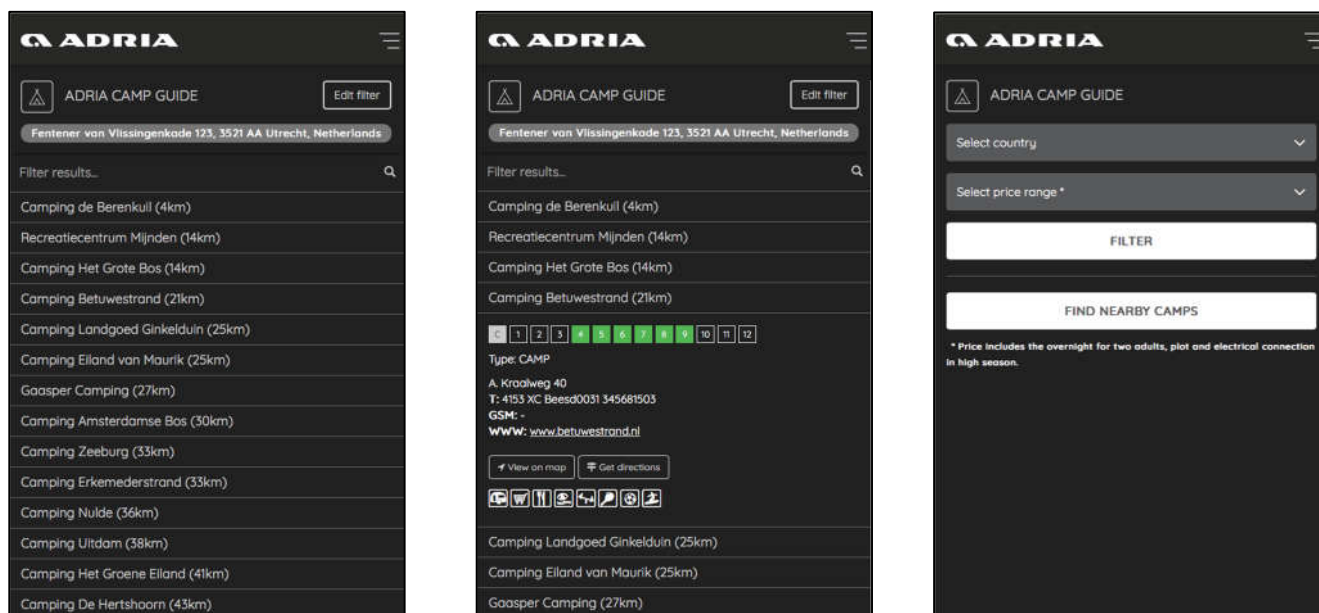

**Remotely controll key motorhome functions:** *Lights, battery level, water levels, temperature, heating and cooling.*

The entry screens shows temperature, fresh and waste water tank levels, vehicle and service battery levels. Your location is indicated on the map and it enables navigation. Find menu on the right side to search through Adria camp guide, find your nearest dealer and get to know your product in the User Manual.

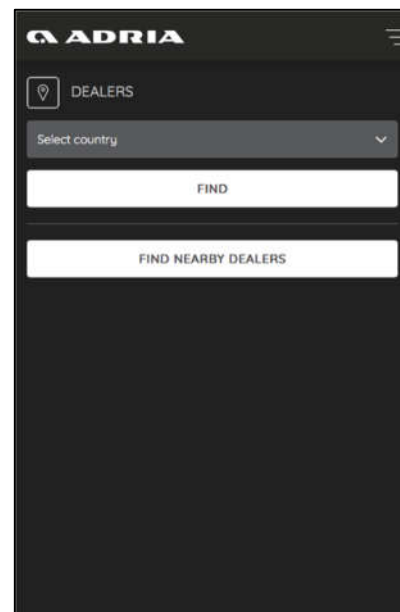

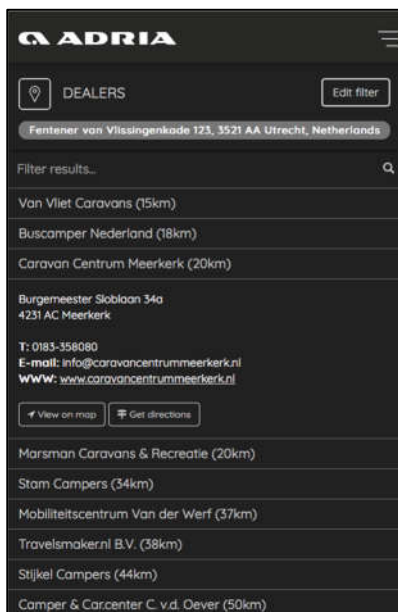

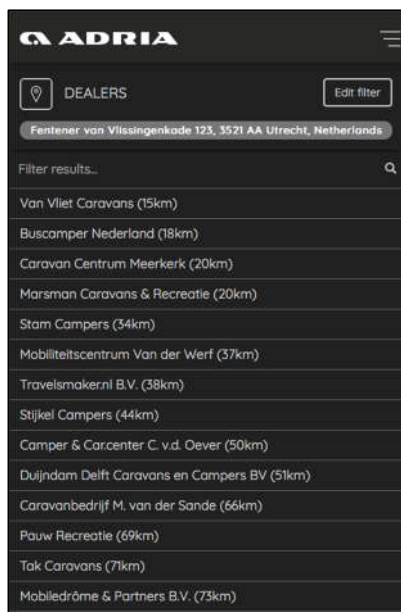

### 5.2. DIGITAL CAMPING & CARAVANING INFORMATION

**Find a Camping site :** Access on-line the Adria Camping Guide with details of over 6,000 campsite destinations.

### 5.3. COMPLETE ADRIA DEALER NETWORK

**Find an Adria dealer:** Contact information with links to website, phone and e-mail contact (including closest dealer) via GPS mapping.

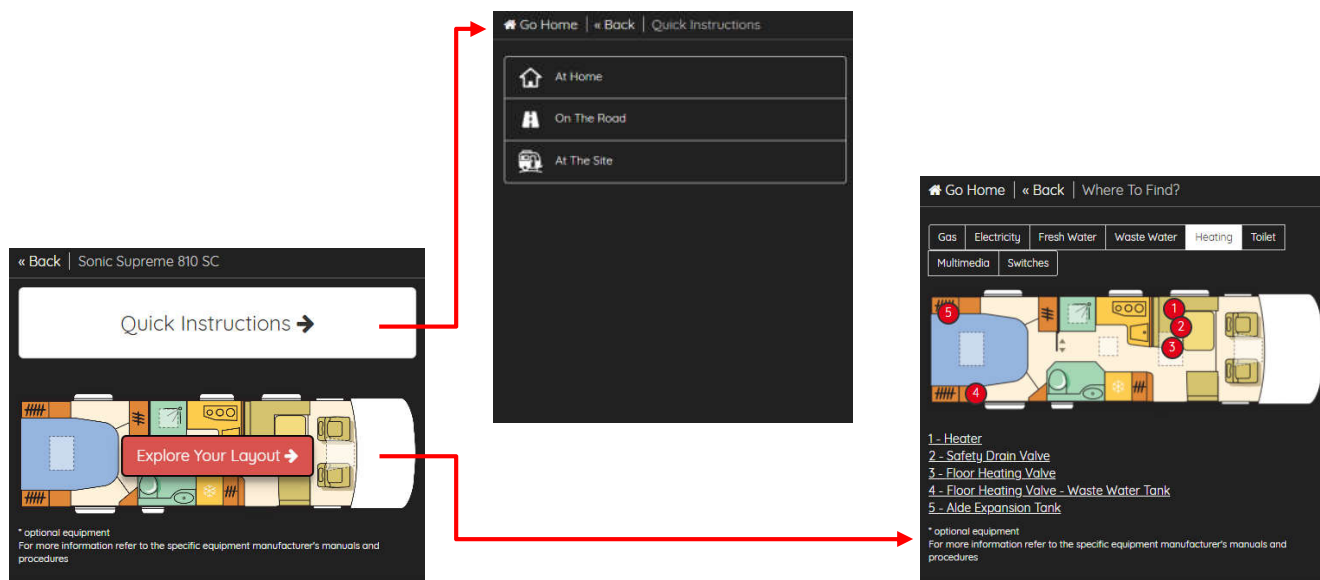

### 5.4. ONLINE POCKET GUIDE

**Access User Manual:** find usefull information about your motorhome or caravan – navigation through the manual can be done in two ways.

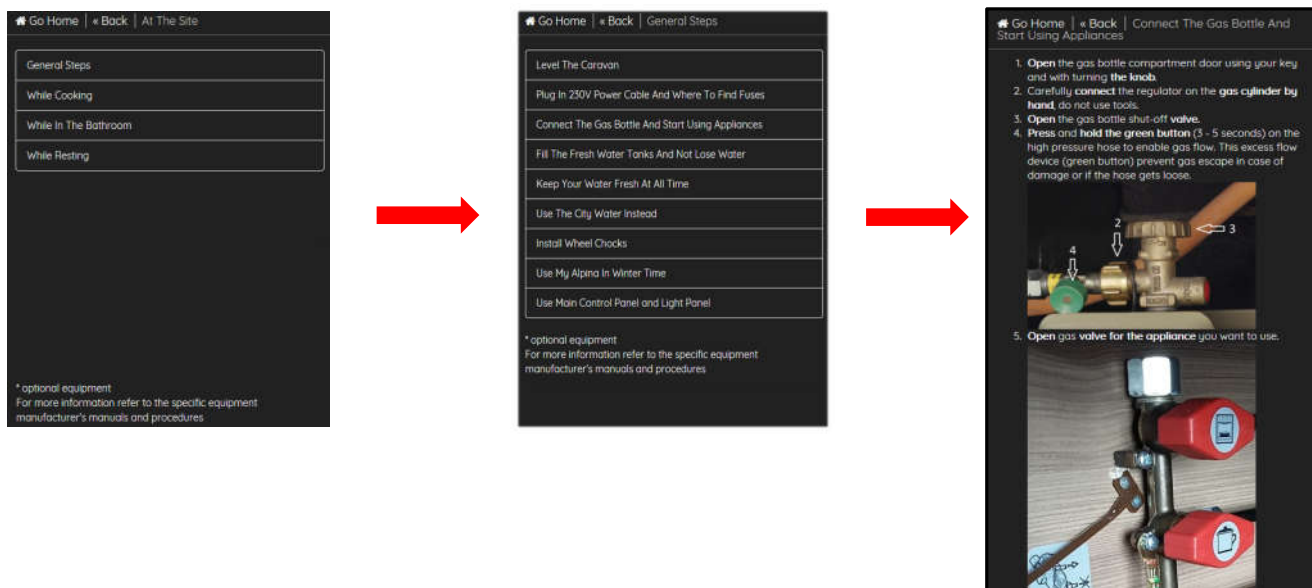

- Read Quick Instructions
- Explore through Layout

Quick instructions divide the content in to 3 chapters, depending on where you are located. At home, on the road, at the site. The specific layout on the other hand shows locations of important parts in the motorhome or caravan. Like gas or water valves, tanks, heater and many more.

## 5.5. QUICK INSTRUCTIONS

On Quick Instructions you may navigate through the different chapters and sublevels.

## 5.6. LAYOUT HOTSPOTS

If you choose to navigate through the layout and are interested in locations as well as descriptions of main parts you can do so with choosing the area of interest (gas, electricity, fresh water, waste water, heating, toilet, multimedia).

For example, in heating area, hotspots are marked in vehicle and any of those represents one part or area of the heating system and its location. When you click on one of those marks, additional information with pictures popup.
